BRAND PROFILE APRIL 2020

This company did not respond to our questionnaire. All information included in this profile has been collected from publicly available sources.

Funded by the **European Union** LPP S.A. has made no commitment that we can find to ensure a living wage is paid across its supplier network.

No evidence was found that LPP S.A. takes steps to safeguard wages when they are in price negotiations with suppliers. This allows suppliers to put profit margins ahead of wage security for workers.

Several benchmarks are available for companies to measure whether wages are sufficient to meet the basic needs of workers and their families.

However, no evidence was found that the company uses any credible living wage benchmark.

LPP S.A. does not publicly report on unionization of workers nor on existing collective bargaining agreements in its supplier factories. LPP S.A. should commit publicly to ensuring a living wage is paid across its supply chain.

LPP S.A. should commit to a published plan describing how a living wage will be achieved in a reasonable time-frame.

LPP S.A. should isolate labour from other production costs, so its suppliers do not cut wages in order to negotiate lower prices.

No evidence was found of public information on gender pay gaps in its supply chain.

No data about wages currently paid to workers at its suppliers is disclosed.
